

Dedicated to a better Brisbane

7 September 2021

Dear resident/business owner

CITYCYCLE DECOMMISSIONING PROJECT ANN STREET/EDWARD STREET, CBD

Brisbane City Council would like to advise that works to decommission and remove CityCycle Station No. 38 on Ann Street/Edward Street, CBD will recommence from mid-September 2021.

These works are part of a rolling program to phase out the CityCycle scheme and deliver more modern travel options that meet the needs of our growing city. As the CityCycle scheme is phased out over the year, Council is preparing for the introduction of shared e-bikes from mid-2021.

Works will generally be undertaken **Monday to Friday, between 7am and 5pm**, and take approximately seven days to complete, weather and site conditions permitting.

During this time works to remove the CityCycle Station will include:

- saw-cutting and jack-hammering to pull apart elements of the station
- removal of the existing concrete around the station
- reinstatement of site area to match existing surfaces (as close as practical).

While a section of footpath and one lane will be closed for the works, local access will be maintained. However, motorists and pedestrians should expect some delays. Traffic control will be in place to assist pedestrians and motorists through the area.

As a result of the street closure, the Bus Zone on Ann Street will also need to be temporarily closed. A temporary bus stop will be in place for the duration of these works, please follow on-site signage.

While works are underway you may experience short-term construction impacts such as increased noise, dust and low-level vibrations from some equipment. We apologise in advance for any inconvenience these works may cause and appreciate your patience while works are completed.

If you would like more information or have any questions about these works, please contact the project team during business hours on 1800 884 681 or email cityprojects@brisbane.qld.gov.au. For information outside of business hours please call Council's 24-hour Contact Centre on 3403 8888.

Yours sincerely

Kristian Pierson
PROJECT MANAGER
